

## Operations Research in Engineering Pre-Health Planning Guide

Please refer to Health Professions Advising Center [website](#) for additional pre-health information.

Medical School Requirement	Possible Degree Application
<b>Biology (8 credits)</b>	Advisor Approved Elective* (with permission of faculty advisor) - BIOMG 1350, and BIOG 1440 or 1445, and BIOG 1500 recommended.
<b>Biochemistry (3/4 credits)</b>	ORIE allows courses that have CHEM 2080 as a pre-requisite as Major Approved Elective (category A). The 3000-level BIOMG courses in the Biochemistry area meet that requirement - BIOMG 3310 and 3320 or BIOMG 3300 recommended.
<b>Upper-level Biology (3/4 credits)</b>	Upper-level Biology and NS courses could be used as Advisor-Approved Electives* (with permission of faculty advisor). <ul style="list-style-type: none"> <li>Although not required, students find that taking upper level biology courses useful in understanding advanced concepts and providing greater depth of preparation for MCAT exams</li> </ul>
<b>General Chemistry (8 credits)</b>	CHEM 2090 - Engineering Common Curriculum Requirement CHEM 2080 or CHEM 2150 - May substitute in place of PHYS 2214 (see note below regarding PHYS 2214) or Advisor Approved Elective* (with permission of faculty advisor)
<b>Organic Chemistry (8 credits)</b>	Organic Chemistry courses that have CHEM 2080 as a pre-requisite may be used as Major Approved Electives (category A) – CHEM 3570, CHEM 3580, and CHEM 2510 recommended.
<b>English (writing intensive) (6 credits)</b>	Engineering Common Curriculum Requirement (FWS) <ul style="list-style-type: none"> <li>Most medical schools will accept First-Year Writing Seminars (FWS) in fulfillment of their writing requirement; however, writing-intensive courses from other disciplines may also be acceptable. Students are encouraged to check the requirements of specific medical schools as the English requirement varies.</li> </ul>
<b>Math</b>	Calculus: MATH 1910 - Engineering Common Curriculum Requirement  Statistics: ENGRD 2700 – Major/Engineering Distribution Requirement
<b>General Physics (8 credits)</b>	PHYS 1110, 1112, 2213 and 2214 - Engineering Common Curriculum Requirement <ul style="list-style-type: none"> <li>Students complete the 8 credits of Physics requirements by completing PHYS 1112, and PHYS 2213 lectures and PHYS 1110 lab.</li> <li>Information covered in PHYS 2214 is recommended for the MCAT. If a student chooses not to take PHYS 2214, it is strongly encouraged that the student self-studies information covered in the course.</li> <li>Some medical schools may require two semesters of Physics lab. If another semester of lab is necessary a student must complete PHYS 2214.</li> </ul>
<b>Social Science</b>	Liberal Studies Requirement or Advisor Approved Elective* (with permission of faculty advisor) <ul style="list-style-type: none"> <li>The “Psychological, Social, and Biological Foundations of Behavior” section of the MCAT covers topics taught in social sciences. Taking courses in Sociology, Psychology, Human Development, and Developmental Sociology can prepare students.</li> </ul>

\*Operations Research and Engineering requires 6 credits of advisor approved electives.

These guides are based on the 2022-2023 degree requirements.
